CAREER OBJECTIVES

Computer Science graduate (GPA 3.27, completed in 2.5 years) with hands-on experience in building cross-platform apps using Flutter & Dart. Skilled in Firebase integration, REST APIs, and responsive UI/UX design. Passionate about mobile development and eager to contribute as a junior developer.

EDUCATION

B.Sc. in Computer Science — University of Jordan, King Abdullah II School of Information Technology March 2023 – September 2025 | Graduated with GPA 3.27/4.0.

CERTIFICATES

- The Complete Full-Stack Web Development Bootcamp — Udemy
- The Complete Flutter Development Bootcamp with Dart — Udemy
- Complete Web & Mobile Designer: UI/UX, Figma + More — Udemy

PROJECTS

- **Khadmatcom – Graduation Project** *(Web, Full Stack)*
Developed a service marketplace platform where users can book and review local service providers. Built features for authentication, booking management, and reviews with a responsive UI and database integration.   GitHub

- **Todoey** *(Flutter, Provider State Management)*
Built a to-do list app with state management using Provider. Implemented adding and deleting tasks dynamically with a clean, responsive UI. Added task categorization with filter options and a dark mode toggle for better usability.GitHub

- **Flash Chat** *(Flutter, Firebase)*
Created a real-time chat app using Firebase for authentication and cloud messaging. Enabled user registration, login, and live message exchange. Added avatars, per-message timestamps, and emoji reactions (long-press) with real-time Firestore updates. GitHub

- **Clima Weather App** *(Flutter, REST API)*
Integrated a weather API to fetch real-time data and display location-based weather conditions. Added user-friendly messages suggesting actions based on the weather. Added weather detail stats (humidity, pressure, wind), a temperature unit toggle (°C/°F), and a city search history with quick-select UI.   GitHub

More projects are available on GitHub: https://github.com/rasmiah . Currently building additional Flutter apps to expand portfolio.

TECHNICAL SKILLS

- Languages & Frameworks**:** Dart, Flutter, HTML, CSS, JavaScript

- Mobile Development**:** Firebase (Auth, Firestore), REST APIs, State Management (Provider)

- Web Development**:** Node.js, Express, PostgreSQL

- Tools: Git/GitHub, Android Studio, VS Code

- Other: UI/UX Design (Figma)

SOFT SKILLS

- Problem-Solving & Critical Thinking
- Adaptability & Continuous Learning

- Collaboration & Effective Communication
- Time Management & Discipline
